

**DEMOCRATIC  
LEADER  
NANCY PELOSI**

*"Thank you for working with my good friend George Miller and me to help move America forward again by winning back the House. That is the only way we can truly create more jobs, advance the cause of equality for all Americans, provide for our children's safety and health, and better protect our planet. The Tea Party-dominated Republican House is holding America back and we cannot afford any more of their partisan obstructionism and manufactured crises."*

Nancy Pelosi is the Democratic Leader of the House of Representatives in the 113th Congress. From 2007 to 2011, she served as the first woman Speaker of the House and is regarded as one of the most effective Speakers in American history. Leader Pelosi has led House Democrats for a decade and has represented San Francisco, California's 12th District, for 25 years.

**CONGRESSMAN  
GEORGE MILLER**

*"The American people did not send us to Congress to stand in the way. They expect us to lead, tackle the greatest challenges of our time, and speak for those whose voices are silenced by the thunder of money and power. There is no greater impediment to economic growth and a strong middle class than the continued dominance of radical Republicans in the House. We need your generous support to win back the House for us all."*

George Miller represents the new 11th District of California, including most of Contra Costa County, and has represented Contra Costa and Solano counties since 1975. He serves as the Senior Democrat on the House Education and Workforce Committee and is a recognized leader on education, the environment and the economy. He chaired the committee from 2007 through 2011 during which time he co-authored the historic Affordable Care Act, cut college loan interest rates in half, won record investments for public schools, and raised the federal minimum wage for the first time in 10 years.
